

HOUSE DEMOCRATIC LEADERSHIP STATEMENT ON DONALD TRUMP'S THREAT TO KILL A WHOLE CIVILIZATION

"Donald Trump is completely unhinged. His statement threatening to eradicate an entire civilization shocks the conscience and requires a decisive congressional response. The House must come back into session immediately and vote to end this reckless war of choice in the Middle East before Donald Trump plunges our country into World War III.

"For years, Republicans have enabled and excused Donald Trump's deeply dangerous and extreme behavior. Enough is enough. Our brave men and women in uniform have been put into harm's way in the Middle East. Over a dozen have already been killed and hundreds injured. Gas prices are skyrocketing, the cost of living in America is out of control and billions of taxpayer dollars are being wasted on a reckless war of choice.

"It's time for House Republicans to put patriotic duty over party loyalty and join Democrats in stopping this madness."
